Company Profile

Shenzhen Guangtidi CNC Equipment Co., Ltd. was established in 2008. It is a professional enterprise specializing in the field of national high-tech. The company is located in Shenzhen, China. It focuses on the research and development, production, and sales of high-gloss engraving and fiber laser cutting equipment, and provides a complete set of intelligent equipment solutions.

The company has a 15,000-square-meter production base and three brands: "JIEKE", "JRK", and "GTDi". The equipment is widely used in metal processing, curtain wall manufacturing, advertising signs, electronic insulating materials, and handicrafts industries.

We have complete import and export qualifications and have rich experience in international trade. Our main target markets cover Southeast Asia, Europe, Germany, the Middle East, and India. Our products have been exported to more than 60 countries and regions around the world.

We offer standardized equipment, customized OEM and ODM solutions, as well as comprehensive after-sales services. We adhere to the concept of stable quality and professional service, aiming to establish long-term cooperative relationships with global distributors and industrialb.

◆Mission: To make intelligent manufacturing change the future.

◆Vision: To become the most trusted intelligent equipment enterprise in China.

◆Values: Quality first, customer satisfaction, integrity-based.

Honorary Qualifications

Guangtiandi CNC has obtained the highest authority qualification certification in the industry. In the future, it will set higher standards for itself and offer better technologies and more professional services to the vast number of customers. This will make JIEKE engraving machines, JIERIK laser machines, and GTDi fiber laser cutting machines become industry-leading brands.
